WAKE UP THE JOY YOU'VE
BEEN LONGING FOR!

Fall/Winter 2020/2021

We are thankful that we were able to provide a safe and fun holiday for our guests this summer and fall!

Getting away from it all took on a whole new meaning this year and we are glad everyone was happy to be here.

We have lots for you to look forward to when the snow flies – and it will and LOTS of it, really soon. We are preparing for a fun filled Winter Season at Buttermilk.

For those that have yet to visit our winter wonderland, here's just a few suggestions on how to embrace winter and make new traditions at Buttermilk this December through March.

Buttermilk Buyout – Winter and Spring

Keep your family and friends close, but not too close.

Book multiple cottages or better yet, book the entire resort (Groups of 23-45) for anywhere for 2-7 nights.

Each family can enjoy the comfort and safety of their own housekeeping cottage, some with private hot tubs. We have 11 acres, multiple bon fire pits, ice huts exclusive to each cottage and a frozen lake (during Winter only) with vast open air and plenty of room to self-distance.

Call to discuss rates and availability from December through June

Here's the thing folks, winter is coming you might as well embrace it like a kid.

Thanks for reading, thanks for being our guests and we will hope to see you soon.
